

Atty. Docket No.: PG3565USw

Group V. Claims 46 and 47 drawn to a method of analysis of a solid phase construct.

The Examiner further requires that if applicants elect Groups I or II, the applicants are required to elect for the purposes of search, a single, specific structure of the claimed chemical construct. This structure should have variables defined down to the level of atoms and bonds and the claims readable on the structure should be identified.

Amendment

Please cancel non-elected claims 32-47, 50 and 51. ✓

Applicants elect Group I, claims 1-31, without traverse.

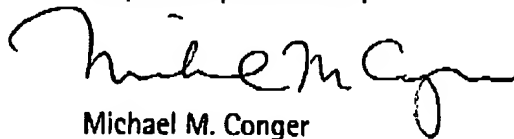

Applicants further elect the chemical construct of Example 1, claims 1-13 and 17-23 readable thereon.

Applicant reserves the right to pursue any non-elected claims in subsequently filed divisional applications.

By way of clarification, G refers to an ionizable sensitizing group. A refers to a linker group, typically containing an isotopic peak splitting label in a preferred embodiment. (Pages 5-8).

If the Examiner has any questions or concerns regarding this communication, the Examiner is invited to contact the undersigned.

Respectfully submitted,

Michael M. Conger
